

Samson Introduces Meteor Mic – the USB mic that is perfect for home recordings, podcasting, Skype and iPad's GarageBand

Milton Keynes - May 19, 2011 - Meteor Mic is the universal solution for recording music on your computer. Perfect for your home studio, Meteor Mic is also ideal for Skype, iChat, voice recognition software and is compatible with iPad's GarageBand. Affordably priced, Meteor Mic is available now for £99.99.

Featuring a **large 1" (25mm) condenser and chrome-plated all-metal body**, Meteor Mic's fold-back leg design allows for the optimal positioning for any recording application from speech to acoustic guitars. Meteor Mic comes equipped with a stereo 3.5mm headphone output for **no latency monitoring** and a **headphone volume control**. In addition, a **microphone mute switch** gives you audio privacy while video conferencing.

"Meteor Mic's compact design is unique, but don't let that fool you. With our largest condenser, everyone will be blown away by the audio quality of their recordings," says Scott Goodman, President of Samson.

Since there are **no drivers required**, you can start recording with your Meteor Mic right out of the box. The mic can be directly connected to any computer and is compatible with most computer-based digital audio software. A USB cable and protective carrying pouch are included.

Meteor Mic has an **SRP of £99.99** and is available now from technology stockists throughout the UK. All Samson products are distributed in the UK by Korg UK Ltd - 01908 857100 / info@korg.co.uk.

About Samson:

Samson began 30 years ago as an audio technology company designing wireless microphone systems. Today, we are an industry leader with three distinct brands: Samson, Hartke and Zoom. Over 250 products designed and distributed by Samson are sold in 130 countries throughout the world.
